

Optometry and Vision Science, is soliciting papers for a Feature Issue.

"Glaucoma: Research Spotlight on Patient Care"

Call for Papers

Deadline for submission October 1, 2007

A feature issue provides the opportunity for your work to be published alongside similar subject matter. Past feature issues of OVS have included a number of important and highly cited papers.

It is intended for the feature issue to reflect the considerable research activity and practitioner interest in strategies for glaucoma diagnosis, management, prevention and general exploration of novel approaches that impact caring for patients with glaucoma.

In particular, we are interested in manuscripts on the following topics as they relate to glaucoma:

- *Epidemiology and risk factors*
- *Evaluation and quantification of glaucomatous vision loss (vision function and visual fields) and quality of life issues.*
- *Evaluation and quantification of glaucomatous structural damage (optic nerve head and retina)*
- *Electrophysiological and other objective measures*
- *Detection of progression*
- *Structure – function relationships*
- *Genetics*
- *Cellular and molecular mechanisms*
- *Neuroprotection*
- *Biomechanics of the optic nerve head, sclera and/or anterior segment*

Manuscripts will be peer reviewed and must be submitted online at <http://ovs.edmgr.com>.

They should be prepared according to the instructions to authors available through the web site homepage.

Indicate in the "author's comments" that your paper is being submitted for this feature issue.

Guest Editors:

Brad Fortune, OD, PhD

William A. Hare, OD, PhD

Allison M. McKendrick, MScOptom, PhD

Robert N. Weinreb, M.D

Brad Fortune will be coordinating review of submitted articles in conjunction with the Editor-in-Chief and Managing Editor. Please contact the Editorial Office (ovs@osu.edu) if you have any questions.

Tony Adams
Editor-in-Chief
